

This is reponse to recent information I received regarding the changes that may be affecting the future of KLOVE radio in my geographic area. This radio station play a vital role in my communtiy and family each day. There are very limited number of radio stations available that are appropriate for children, specifically in my area. This radio station serves a vital need for moral and ethical music in the area. If it is removed from the air, there is no guarantee that it will be replaced with the same high quality music and life enhancement this radio station provides. Please DO NOT allow this service to be eliminated from our area. There is very little left available that promotes good values and moral character in our community. Thank you for your consideration, Christy West
